

Using the term “Homeless People” erases the faces off of people who are experiencing a crisis.

It also erases other parts of a person’s identity...

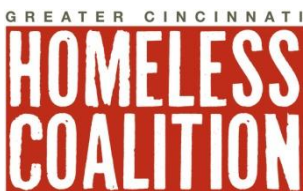

To be an Advocate:

Use Person-First Language

“People Experiencing Homelessness” or “A Person Experiencing Homelessness”

The term “Homeless People” binds the circumstance with the person, but homelessness should be seen as a temporary condition.

Everything in Life is Temporary but Compassion has a Lasting Effect
